Notes:

Before the exam: There are two important steps to take when you have been instructed to use these tools for an upcoming exam:

1. Make sure you have the appropriate equipment. For example, for Respondus LockDown browser you will need a computer running MacOS 10.12 or higher OR Windows 10, 11. with at least 4 GB RAM Additionally, for Respondus Monitor, you will need a webcam that works with your computer.
2. Install the required Respondus tool(s) well in advance of your exam, so you can identify any issues with time to resolve them. Ensure you go through Orientation to online exam assigned and take a "Mock Exam run" for you to test out the system, complete it on schedule so you have more experience using these tools.

During the quiz or exam: During the actual exam, follow any special instructions provided by your examiner When you have completed the exam, you will need to submit it in order to exit the LockDown browser. Ensure you submit exam.

If you have a question or technical issue during the exam. Different modes of communication have been provided to reach your invigilators or learner support staff during the exam.
